AUDITORS' REPORT TO THE GOVERNORS

We have audited the following consolidated financial statements of **Laurentian University of Sudbury** as at April 30, 2004 and for the year then ended:

Consolidated Statement of Financial Position
Consolidated Statement of Operations
Consolidated Statement of Changes in Net Assets
Consolidated Statement of Cash Flows

These consolidated financial statements are the responsibility of the University's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation.

In our opinion these consolidated financial statements present fairly, in all material respects, the financial position of the University as at April 30, 2004 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

LAURENTIAN UNIVERSITY OF SUDBURY

Notes to Consolidated Financial Statements

Year ended April 30, 2004

The University is incorporated by special act under the laws of Ontario.

1. Significant accounting policies:

(a) Revenue recognition:

The University follows the deferral method of accounting for contributions. The principles under this method are summarized as follows:

Unrestricted contributions and pledged donations are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Contributions externally restricted for purposes other than endowment are deferred and recognized as revenue in the year in which the related expenses are recognized.

Contributions restricted for capital asset purchases are deferred and amortized to operations on the same basis as the related capital asset.

Contributions of artwork are recorded at fair market value at the date of the contribution as a direct increase to net assets.

Endowment contributions and related restricted investment income are recognized on the accrual basis as direct increases in net assets.

Student fees and tuitions are recognized as revenue in the fiscal period when the respective courses and seminars are held.

(b) Investments:

Short-term investments are invested in marketable securities and are carried at cost which approximates market value.

Long-term investments are invested in pooled funds and are carried at market value.

Income derived from endowment investments is allocated to the related scholarship and bursary accounts and the endowment fund balance. Investment income (loss) on non-endowment investments is allocated to the respective non-endowment fund balance in proportion to their yearly weighted average.

(c) Inventories:

Inventories are stated at the lower of cost and net realizable value.

LAURENTIAN UNIVERSITY OF SUDBURY

Notes to Consolidated Financial Statements

Year ended April 30, 2004

1. Significant accounting policies (continued):

(d) Capital assets:

Purchased capital assets are recorded at cost. Contributed capital assets are recorded at fair market value at the date of contribution. Capital assets are depreciated on the straight-line basis over their estimated useful lives as follows:

Buildings	40 years
Equipment and furnishings	7 years
Land and site improvements	15 years

(e) Capital leases:

The University has entered into certain capital leases for which title to the related assets will vest in the University on the termination of the leases. The original cost of these assets amounting to \$5,363,000 is reflected as capital assets and the present value of the outstanding lease commitments is reflected as an obligation under capital leases.

(f) Post employment benefits:

The University provides for certain health benefit payments under the Laurentian University Retirees' Plan to retirees, the actuarially determined deficiency of which amounted to \$2,069,289 as at April 30, 2003. These calculations are prepared every three years.

(g) Internally restricted net assets:

The University restricts use of portions of its operating net assets for specific future uses. When incurred, the related expenses are charged to operations, and the balance of internally restricted assets is reduced accordingly with a transfer to unrestricted net assets.

(h) Related entities and basis of presentation:

MIRARCo

The consolidated financial statements are inclusive of the assets, liabilities, revenues and expenses of the Mining Innovation Rehabilitation and Applied Research Corporation, which is a wholly controlled entity.

LAURENTIAN UNIVERSITY OF SUDBURY

Notes to Consolidated Financial Statements

Year ended April 30, 2004

1. Significant accounting policies (continued):

(h) Related entities and basis of presentation (continued):

Northern Ontario Medical School

The Northern Ontario Medical School was created in order to provide medical education in Northern Ontario. While the University, along with Lakehead University, the only voting members of the School, has significant relationships with the School, the University has no claim to the School's net assets and nor is the University liable or contingently liable for any of the School's obligations. Accordingly, the operations of the School are not included in these consolidated financial statements.

Sudbury Neutrino Observatory

The Sudbury Neutrino Observatory was created on December 2, 1997 as a joint venture of the University and three other Canadian Universities, to perform research in sub-atomic physics. The University's proportionate share of the entity's assets, liabilities, revenues and expenses to March 31, 2003 have been included in these consolidated financial statements. The 2004 financial statements are not available and accordingly, the balances and transactions will be accounted prospectively.

(i) Use of estimates:

The preparation of consolidated financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

2. Loan receivable:

The loan represents advances made on behalf of the students to fund the construction costs of the third floor of the Student Centre.

The loan is recoverable from present and future students by way of annual fee assessments. The loan is interest bearing and is based on the University's internal rate of return for the previous year less 2%, to a minimum of 2%. The current year's balance of \$99,000 is included in accounts receivable.

	\$ 59,864		58,397	

5. Accrued early retirement program costs (in thousands of dollars):

The University offers a voluntary early retirement program to all University academic staff. The estimated accrued liability, which amounts to approximately \$924,000, represents salaried costs owed to the participating staff members.

These retirement costs will be paid out approximately as follows:

2005	\$ 548
2006	287
2007	51
2008	38
	924
Less current portion included in accrued liabilities	548

Thereafter	5,829
Total minimum lease payments	7,859
Less amount representing interest	3,694
	4,165
Less current portion included in current liabilities	100
Non-current portion	\$ 4,065

7. Post-employment benefits obligation:

The University provides for the reimbursement of medical expenses to retired employees provided that certain specified conditions are met. An actuarial calculation of the future liabilities thereof has been made and forms the basis for the liability reported in these consolidated financial statements.

The significant actuarial assumptions adopted in measuring the University's accrued benefit obligation are as follows:

Discount rate	6.5% per annum
Rate of return on plan assets	5.0% per annum
Inflation rate	3.0% per annum
Percent of retiring employees who elect to be covered	75%
Attribution period	from date of hire to age 65

The benefit plan expense for 2004 amounted to \$211,000 (2003 - \$66,000) and the benefit payments included therein made on behalf of retirees amounted to \$51,000 (2003 - \$46,000).

	\$ 3,723,443	1,400,206	619,307	4,504,342

The internal loans bear interest at a floating rate equal to the return earned on short-term investments and are to be repaid over a period ranging from five to ten years.

12. Commitments:

- (a) Effective May, 1988, the University agreed to participate in a reciprocal exchange of insurance risks in association with forty other Canadian universities. This self-insurance co-operative involves a contractual agreement to share the insurance property and liability risks of member universities.
- (b) Pursuant to the terms of the collective agreement, faculty members become entitled to apply for sabbatical leave after a specified period of service. At April 30, 2004, the salary entitlement for sabbatical leaves approved for the 2004/2005 academic year amounts to approximately \$1,914,741 at current salary levels (2003 - \$1,931,000). The salaries paid to faculty on sabbatical leave in 2003 amounted to approximately \$2,565,893 (2003 - \$2,304,000).

13. Pension plan:

The University operates a defined contribution pension plan in which the University contributes a set amount to the plan in respect of individual employees, with a guaranteed minimum defined benefit. The actuarial report effective July 1, 2001, indicates that the guaranteed defined benefit portion of the pension plan has a surplus of approximately \$9,333,000. The University's Pension Committee subsequently made pension changes which would reduce the amount of the surplus by approximately \$5 million. Contributions made by the University during the year amounted to approximately \$3,348,000 (2003 - \$2,948,000).

18. Fair value of financial assets and financial liabilities:

The carrying values of cash and short-term investments, accounts receivable, accounts payable and accrued liabilities and accrued vacation pay approximate their fair value due to the relatively short periods to maturity of these items or because they are receivable or payable on demand.

Information concerning the loan receivable is provided in note 2; the fair value approximates the carrying value.

Information concerning investments is provided in note 3; the fair value approximates the carrying value.

Information concerning obligations under capital leases is provided in note 6. In view of the terms of the leases, comparable market rates are unavailable and the fair values are not readily determinable.

19. Related party transactions:

During the year, the University entered into various contracts with the Northern Ontario Medical School for the provision of services relating to Human Resources and Payroll processing, Technology and Help Desk, Accounting, Finance and Purchasing and the provision of goods, the transactions of which are summarized as follows:
