

Co-Operative B.Sc. in Mineral Exploration Workshop
November 22 & 23, 2008
Willet Green Miller Centre

Introduction to Exploration, Resource Visualization,
and
Resource/ Reserve Estimation Methodologies

Saturday, November 22, 9:00 a.m. to 4:00 p.m.

- 1) Introduction to Exploration Philosophy and Methodology
Scott McLean, P.Geo., President, and CEO McLean Geoscience Ltd., and HTX Minerals Corp.
- 2) Database Management: Quality Assurance in Mineral Exploration
Chantal Jollette, P.Geo., Project Geologist FNX Mining Ltd.
- 3) Data Integration and Visualization
David Richardson, P. Geo., Project Geologist, Xstrata Nickel

Sunday, November 23, 9:00 a.m. to 4:00 p.m.

- 1) Introduction to Grade Tonnage Estimation Techniques
Iain Kelso P.Geo., Caracle Creek International Consulting Ltd.
- 2) NI43-101 Compliant Resource Estimates and Economic Assessment
To be Announced

The objective of this workshop is to provide an introduction to exploration, and to the procedures and skills required to go from a discovery to a mine. This workshop is designed for students and for geoscientists new to the exploration and mining industry.

Registration costs: There is no registration fee for students. The registration fee for participants from industry, academia or government is \$150/day and will be used to support the Co-Op Option in Mineral Exploration.

If you are interested in attending this course, please contact Roxane Mehes @ 705.673.6575 to reserve a space. Payment for the course will be onsite and can either be in cash or by cheque made payable to: Laurentian University, Department of Earth Sciences.
