1. Students entering Ontario universities today have access to a growing variety of world-class electronic information resources that are accessible to them 24x7x365. Our libraries are leaders in transforming traditional library services by adopting innovative technological solutions such as [ScholarsPortal](#), a shared gateway to scholarly resources and [RACER](#), a province-wide interlibrary loan service. Through these resources and services our libraries are preparing students for today's world of information. Our libraries also provide a wide array of unique resources, services, and facilities.
2. The table describes the holdings of the J.N. Desmarais Library, Laurentian University's main library. The University of Sudbury and Huntingdon University also have libraries, but they are not members of the Ontario Council of University Libraries (OCUL).
3. Students registered to programs offered jointly with colleges, such as Georgian College and St-Lawrence College, also have access to the libraries at these institutions.

Program	Employment Rate 2 years (%)	Employment Rate 6 months (%)
Agriculture & Biological Science	100	92.86
Business & Commerce	94.37	98.59
Computer Science	100	85.71
Education	98.44	96.97
Engineering	100	100
Fine & Applied Arts	100	100
Humanities	98.33	95.92
Kinesiology, Recreation & Phys. Educ.	95.83	100
Mathematics	100	100
Nursing	100	100
Other Arts & Science	100	100
Other Health Professions	100	100
Physical Science	100	66.67
Social Science	94.50	95.05
Total	96.93	96.46

Employment Rates: The employment rate is defined as the number of employed persons expressed as a percentage of the labour force where the labour force is those persons who were employed, or unemployed but looking for work. To determine employment rates of recent graduates, Ontario universities conducted a survey of all 2008 graduates of undergraduate degree programs. Graduates were asked questions regarding their employment situation six months and two years after graduation.

K2a – KPIs Graduation Rates

Key Performance Indicators (KPI)

Degree Completion Rate for Undergraduate Cohort, Fall 2000

Program	Graduation Rate (%)
Agriculture & Biological Science	68.0
Business & Commerce	72.6
Computer Science	40.9
Education	97.0
Engineering	43.8*
Fine & Applied Arts	63.6
Humanities	65.0
Kinesiology, Recreation & Phys. Educ.	88.1
Mathematics	25.0
Nursing	73.6
Other Arts & Science	65.2
Social Science	61.7
Total new full-time year one undergraduate students enrolled in fall 2002	
Total students reported above who graduated by 2009	876
Overall Graduation Rate	70.9

Graduation Rates: The Ministry of Training Colleges and Universities has calculated graduation rates using a single entering cohort of students and determining whether or not they graduated within seven years. The methodology employed involves the selection of all new full-time, Year One undergraduate students on the official Fall 2000 enrolment file, who have a valid (and unique) student ID number, and were seeking either a bachelors or first professional degree. The subset was then matched against the records for students who received a degree (in any program) from the same institution during the most current seven-year period (2001 to 2007).

* Engineering students interested in specialties other than metallurgy and mining engineering (e.g., civil, mechanical, chemical engineering) had to transfer after two years to another university. Laurentian did not offer all four years of the program for several engineering specialties. Because of this arrangement and the methodology used by the Ministry, graduation rates for Laurentian's engineering programs are abnormally low.
